New from Pearson

Managing Public Money
3rd Edition

Authors: J Pauw, G van der Linde, D Fourie and C Visser

The third edition of this highly successful public financial management text is written by a team of authors with extensive expertise and international exposure, both academically and professionally.

This handbook for practitioners focuses on developing public financial management skills within a framework of information on financial legislation, structures and technologies in the public sector. It includes the latest developments on the South African public financial system, including new content on the role of the Public Protector, updated legislation and a series of features to contextualise key topics in public financial management. This text is intended for public-sector managers and students, and encourages a reflective, critical and practical approach to public financial management. Students and managers have much to gain from this new edition.

Contents

1. The public in public money
2. Statecraft and politics in public money
3. Governmental budget organisation at national level in South Africa
4. Preparing your budget
5. Managing budget execution
6. Financial management technologies
7. Working your capital
8. Procuring goods and services and the supply chain
