**Digital  
Literacy  
Citizenship**

Online Course

# Digital literacy is your *passport to the future*

Our Digital Literacy Citizenship course is an online, modular and non-linear programme for students who need to build their 21st-century digital literacy skills.

With more work than ever before happening online, possessing the skills and tools to work on digital platforms is no longer only an advantage, but has become vitally important. The 21st-century digital citizen understands the consequences of his or her online actions and can confidently and effectively navigate the ever-increasing online world.

Our Digital Literacy Citizenship course includes:

- pre-assessments
- content presentation
- practical and interactive activities
- animations and videos.

The training model is based on the 'Tell, Show, Do' approach which breaks away from the traditional lecture-based learning.

## **Tell**

Provide information

## **Show**

Demonstrate examples

## **Do**

Apply the knowledge

Each section has content that sits in three levels of ability and each level has three to four topics.

### **Beginner**

For those who struggle with technology in general.

### **Everyday**

For those who are used to some technology but need to boost their confidence and awareness.

### **Savvy**

For those who are comfortable with technology but need to improve awareness of the behavioural, ethical and legal aspects of what they do.

# Content framework

In completing this course, students will learn what it means to **CREATE** digital content, **COMMUNICATE** and **COLLABORATE** online, **USE** digital technology safely and effectively, **BEHAVE** appropriately, competently **EVALUATE** online activity and **SEARCH** the internet efficiently.

Exploring and experimenting is treated as a golden thread and runs through all seven sections, while legal and ethical issues are also included.

## Broadcast your abilities

Individuals who complete this course receive a digital badge so they can easily share this achievement to popular on-line destinations, such as LinkedIn and Facebook, and employers can instantly verify their skills.

# Your partner on the learning journey

Learning isn't a destination starting and stopping at the classroom door. It is a never-ending road of discovery, challenges, inspiration and wonder. For many people, learning is the route to a job to support their family or the skills to help them progress in their career. For others, it is simply a passion for discovery. Learning opens up opportunities and enriches every stage of life. Supporting people along this path of discovery and inspiration, Pearson cultivates a love of learning that enables a lifetime of progress.
